

Arizona Report of Public Agency Performance on Preschool Transition

Indicator 12: Preschool Transition (In-by-3)

Percent of children referred by Arizona Early Intervention Program (AzEIP) prior to age 3 who were found eligible for Part B preschool services and who had an IEP developed and implemented by their third birthday.

Measurement

The data are reported to the ADE/ESS by each school district in the State in the ESS Annual Special Education Data Collection report.

Explanation of Indicator

The reported percentages include children who were found eligible for special education and had an IEP developed and implemented prior to their 3rd birthday, and children who were found not eligible by their 3rd birthday.

Districts that reported no children transitioning from AzEIP during the 2007–2008 school year are not listed in this report. For public reporting purposes, an asterisk (*) is reported for a district when the district had fewer than 10 children transition from Part C/AzEIP to Part B preschool services prior to age 3. In these instances, the data are not reported to ensure confidentiality.

This indicator is considered a compliance indicator by the U.S. Department of Education and the State target must be 100%.

All data are reported for school year 2007–2008.

State Target for SY 2007–2008: 100%
